

# Help Your Home Perform Better

## Save Money With **Kentucky Power's** Whole House Efficiency Program

Sign Up For **Savings**

From generous rebates for energy-efficient purchases to comprehensive home energy audits, Kentucky Power's Whole House Efficiency Program is designed to save you energy and money throughout your entire home.

### HOW IT WORKS

As a service available to qualifying AEP Kentucky Power residential customers, the Whole House Efficiency Program helps you identify and fix areas in your home that may be losing valuable energy. An energy expert will come to your home and provide you with a personalized evaluation to identify improvements that can be made to save energy and money.

#### The service may include:

- Air infiltration diagnostic test to find air leaks
- Customized report with energy efficiency recommendations
- Energy savings booklet
- Instant energy-saving upgrades

### INSTANT UPGRADES

During the energy audit of your home, the energy specialist may install any or all of the following measures as part of the service:

- High-efficiency light bulbs
- Domestic hot water pipe insulation<sup>†</sup>
- Water heater insulation wrap<sup>†</sup>
- Low-flow showerhead<sup>†</sup>
- Low-flow faucet aerator<sup>†</sup>
- Weatherstripping, caulking, doorsweep
- Duct sealing

<sup>†</sup>Water measures are only available to customers with electric DHW.

### QUALIFY FOR REBATES

If you make any of the suggested improvements, you may qualify for program rebates. Plus, the energy savings you'll enjoy continue to add up day after day and year after year to save you money.

#### Weatherization Rebates

Get rebates for the purchase and installation of air sealing, duct sealing and insulation (attic, wall, basement sidewall and crawlspace).

#### Heat Pump Equipment Rebates

Earn rebates for qualifying HVAC equipment installed by a participating contractor, including heat pumps and smart programmable thermostats.

### ACT NOW

The sooner you sign up for the Whole House Efficiency Program, the sooner your home will start saving you money. Invite an energy expert into your home today to learn what money-saving steps you can take.

Attic Insulation*	From R19 to ≥R-38	\$0.20 per sq. ft. up to \$200
Wall Insulation**	add ≥R-13	\$0.30 per sq. ft. up to \$250
Basement Sidewall Insulation	add ≥R-13	\$0.30 per sq. ft. up to \$200
Crawlspace Insulation	add ≥R-19	\$0.30 per sq. ft. up to \$200

© 2017 Kentucky Power.

The program is offered to residential customers that receive electric service from Kentucky Power Company and have an electric cooling system (central air conditioner or heat pump). Customers living in single family, multi-family, and mobile homes are eligible.

It is the customer's responsibility to meet the program requirements, purchase and install the weatherization and HVAC measures by a qualified participating dealer. Rebates vary depending on the measures installed and the efficiency rating of measures installed. The measures may be modified by the implementation contractor and Kentucky Power to reflect market conditions.

<sup>†</sup>Smart Programmable Thermostat incentive is available to customers with a heat pump (new or existing). The thermostat incentive is not applicable to customers with central air conditioning.

\*Existing attic insulation must be no more than R-19. Attic Insulation incentive is only eligible in combination with Air Sealing.

\*\*Existing wall insulation must be no more than R-5.
